

## MENTORING

The developmental needs of every student for his academic and future professional career are facilitated through a three tier mentoring program. Every student is assigned a **faculty mentor**, and a **senior student mentor** who act as a friend, philosopher and guide and help in his/her development. The **parent** is also a mentor, and thus all three tiers jointly collaborate towards the development of the student through a process of experiential guidance and learning.

### **Roles**

Mentors acts as guides by sharing their experiences of challenges and assertions required to progress through personal and professional life. They give counseling to reduce anxiety or concerns and act as role models for students. They fulfill their function through formal and informal interaction with their student mentees at various opportunities.

### **Mentee**

The mentee has a desire to progress and excel; and learn from the experience of his/her mentor. Full benefit of mentor mentee relationship is achieved only when both of them work together to a common goal. The mentee (student) must:-

- (a) Have a strong commitment to attain capability
- (b) Be open and receptive to new ways of learning
- (c) Readily accept the feedback and act upon it.
- (d) Be willing to apply learning into practical situations
- (e) Have a focus on achieving the desired business/ professional/ personal results
- (f) Be ready to ask for help.
- (g) Have a strong sense of personal responsibility and commitment.
- (h) Reach out to meet the mentor and not wait for a formal schedule

### **Road Map**

The mentoring process develops in five phases i.e.

**Establish** - During the first few meetings, both the mentor and mentee get to know each other, and build trust.

**Elucidate** - Mentoring program spreads awareness and understanding on various issues Academic and Institutional.

**Expand** - The mutual trust, which has developed between the two, can give the mentee the confidence to challenge the ideas of the mentor, just as the mentor will challenge the protégés ideas.

**Engage** - This phase embarks the start of a personal action plan of the protégé to attain his/her goal. The mentor here is like a facilitator of protégés goals.

**Evolve** - At this stage the mentor step back from the formal relationship to discuss together with the protégé how they wish to continue their relationship.

The above phases are not exclusive or time bound. The pace of movement or progress of mentoring depends upon the strength of the relationship and the enthusiasm of the mentee. The relationship is not limited to the duration of stay with Amity and is lifelong in many cases.

### **Benefits of mentoring program.**

- (a) Helps the mentee gain a better understanding of self
  - (b) Provides an insight into the present and future professional work environment
  - (c) Show relevance and linkage of the professional environment to their program of studies
  - (d) Assist students to be better equipped to have control over their future
  - (e) Enable students to have a better evaluation of relevant careers and subjects pursued
  - (f) Get greater understanding about the field or industry of their interest
  - (g) Enhancement their personal and professional skills
  - (h) Gain greater confidence and self-esteem
- 

- (i) Learn about potential career options from someone who has been in their shoes
- (j) Obtain practical advice from a different perspective
- (k) Network with professionals in the students' field of interest & expose themselves to the professional environment
- (l) Learn about the operations of a specific company and industry
- (m) Share their educational and career aspirations with others and get unbiased advice
- (n) Encouragement to reach out and attain their goals
- (o) Seamless Transition from academic environment to real work life.

#### **Implementation**

Every Department head/ appointed faculty member arranges appointment of faculty mentor and student mentor for each student. Formal meetings are scheduled between mentors and mentees so that learning is progressed across functions, groupings, and cultures for maximum benefit. Students aims are decided mutually between mentor and mentee and the progress towards the desired goals would be tracked throughout the duration of his/her stay with Amity. We are proud to say that our mentoring system is unique to Amity and has helped many of our students stand out amongst their peers. They have excelled on both their personal and professional fronts as a result of the mentoring system.
